

# INVENTORY SOLUTIONS CAPABILITY STATEMENT

## OVERVIEW

Countifi replaces manual counting procedures with Computer Vision and AI technology.

We improve and streamline inventory management through our cutting-edge visual recognition technology. Countifi uses computer vision and deep learning models to count inventory accurately and automatically. We provide asset monitoring and initial physical inventory collection and web-based location tracking for Airlines, Hospitals, Medical Facilities, Construction Companies, and Government Agencies

## ACCURATE, CONNECTED, ALWAYS ENGAGED INVENTORY AND ASSET MANAGEMENT

We are committed to reducing costs by replacing manual inventory processes with technology

## SOLUTIONS

### INVENTORY & ASSET MANAGEMENT

With Countifi, you gain real-time inventory visibility. Effortlessly manage your assets digitally, whether you're in the office or on the go.

### ANALYSIS & REPORTING

Setup your account, allow team members to access inventory from any device and then create supercharged, customized inventory reports to help you forecast demand and track assets.

### COUNTIFI VISION

Countifi's deep understanding of key performance indicators in asset management allows us to provide our clients with an accurate, connected, and always engaged inventory-management platform.
